# Optimum Fine Textured

SuperDurable powder coatings

# Optimum Fine Textured

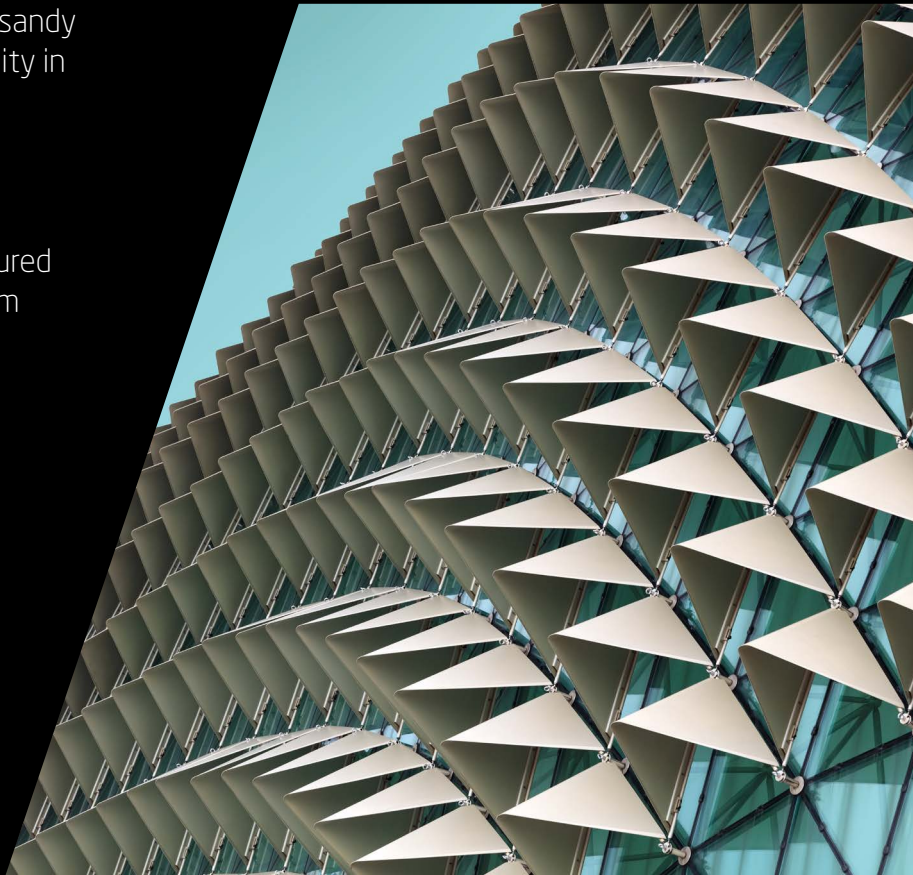

RAL-based fine textured powder coatings  
in SuperDurable quality with Optimum properties.

Axalta's fine textured finish was the original sandy textured powder coating in architectural quality in the market. The fine textured effect is highly appreciated in the architectural world due to its special and sophisticated look.

With Optimum, we take the original fine textured RAL-based finishes to the next level. Optimum contains all the benefits of a fine textured finish in a SuperDurable quality with optimised technical properties.

The SuperDurable quality ensures enhanced UV fastness whilst Optimum provides optimised penetration and improved transfer efficiency. Resulting into less rejected pieces, increased conveyor speed and reduced consumption.

Competitor X Fine Textured

Optimum Fine Textured

The visual difference of  
Optimum Fine Textured at a glance.

## Highlights

- SuperDurable quality
- Enhanced UV fastness
- Extra matt finish
- Excellent batch-to-batch consistency
- Outstanding scratch-resistance
- Optimised transfer efficiency & penetration
- Freedom to increase conveyor speed
- Less rejected pieces
- Reduced consumption
- Qualicoat Class 2 & GSB Master certified
- 25 year warranty (under conditions)
- Available from stock
